NOVAMOBILI

IT — Casa. Lo spazio della quotidianità, il luogo dove sostare, essere, evolvere. Dimensione privata e condivisa, in dialogo continuo tra nuovo ed esistente, dove anche gli oggetti che ci circondano influenzano il nostro modo di essere e il nostro benessere fisico e spirituale.

Novamobili racconta il suo percorso di ricerca sul contemporaneo ed esplora il tema del colore, rivelando in sei paesaggi domestici, una personalità vivace, allo stesso tempo elegante e creativa. Qui la cromia diventa protagonista e la narrazione si sviluppa in un susseguirsi di storie “colorate”.

Gli arredi entrano in spazi ampi e sofisticati o in luoghi intimi e accoglienti scanditi da tonalità rilassanti, pieni di storie e di luce. Sono soluzioni che organizzano passioni e ricordi, risvegliano emozioni, ispirano, in un gioco di equilibri e contrasti. Perché scegliere un arredo è rivelare una parte di sé.

EN — Home. The space of our everyday existence, the place where we stay, live, evolve. A private and shared dimension, home to a constant dialogue between the new and the existing, where even the objects around us affect the way we live as well as our physical and spiritual wellbeing.

Novamobili tells of its exploration into contemporary trends and the theme of colour, revealing – in six domestic settings – a cheerful yet elegant and creative personality. Here, colour is the hero and the narrative plays out in a series of “colourful” stories.

The furniture sits in generous, sophisticated spaces or in inviting, intimate places punctuated by relaxing shades, full of history and light. These are solutions that organize passions and memories, stir up emotions, and inspire, juggling balance and contrast. Because choosing an item of furniture means revealing a part of ourselves.

IT — Cube System è un sistema di contenitori di diverse dimensioni che si affiancano e si sovrappongono per creare cassettiere, comodini, comò e settimanali, ma anche composizioni più complesse con boiserie, panche, vassoi, portadocumenti, scrittoi, appendiabiti e specchi. I singoli moduli, che hanno la particolarità dei frontali ripiegati in folding, si possono personalizzare a piacere scegliendo tra le molte finiture disponibili, inclusi i tessuti per i pannelli imbottiti e foderati.

EN — Cube System is a system of different sized storage units that are designed to be placed next to each other or stacked to create drawer units, bedside tables, chests of drawers and tallboys, as well as more complex arrangements involving wall panelling, benches, trays, document holders, desks, clothes racks and mirrors. The individual modules, which stand out for their mitre-folded fronts, can be tailored to your individual tastes with a whole host of finishes to choose from, including fabrics for the padded and lined panels.

IT – Giro-Giro System è un contenitore modulare con cassetti disposti su ogni lato. Offre la massima libertà di combinazione perché la struttura e i frontali si possono personalizzare con diverse finiture e tonalità, creando un piacevole effetto grafico di linee discontinue che si rincorrono e si intersecano a quelle verticali, accentuate dalla piccola maniglia in metallo. Pensato come contenitore freestanding per il centro stanza – in camera da letto, dentro la cabina armadio o nella zona giorno – Giro-Giro System è altrettanto funzionale in appoggio alla parete, con gambe o a terra.

EN – Giro-Giro System is a modular storage unit with drawers arranged on all sides. It offers virtually unlimited options as the structure and fronts come in different finishes and colours that can be mixed and matched, creating a pleasing graphic effect with a run of broken lines that continuously intersect the vertical lines accentuated by the small metal handle. Designed as a freestanding unit to sit in the middle of the room – in the bedroom, inside the walk-in wardrobe or in the living area – Giro-Giro System is just as functional set against a wall, standing on legs or directly on the floor.
